

Motion Sensor

Detects motion

Our motion sensors helps to optimize and streamline the use of spaces in the office. Motion Sensor detects motion, for example when people are entering a room, indicating that it is being used. No more guesswork, identify the office spaces real utilization.

Benefits

- Identify and understand your spaces
- Get insight of the utilization on your spaces, such as:
 - Conference rooms
 - Work spaces/Offices
 - Desks
 - etc.
- Make decisions based on facts
- Easy mounting with magnets, no tools needed.
- When integrated with RIO Companion, identify free and available resources in real time

* Motion sensor requires RIO Companion or RIO Study services

TECHNICAL INFORMATION

Detection Capabilities

82°x94° degrees
Max distance 5 m / 16.4 feet
(depending on mounting)

Also detects environmental temperature around the sensor

Wifi

Wi-Fi/WLAN
IEEE® 802.11 b/g/n (2.4 GHz)

Network security

IEEE 802.11 WEP, WPA, WPA2 Security
(not 802.11x WPA-Enterprise)

Connections

ROL Programming port, Mini-USB for charging

Battery

Rechargeable Lithium-Ion battery
Capacity 3.8V 1400 mAh
Charging time 12 hours

Dimensions

84 x 28 x 44 mm
3.3 x 1.1 x 1.7 inch

Weight

70 g
2.5 oz

Operating Temperature

10°C - 25°C
50°F - 77°F

FCC ID

2ADHKATWINC1500

Color and material

White, ABS

Included

Battery included (mounted inside)

Add-ons

Mini-USB power charger
Wall mount kit
Mini-USB cable

PLATFORM

Easy Setup

- ✓ Central management with RIO Companion
- ✓ Up and running within minutes

Simple Mounting

- ✓ Magnets to mount on existing metal surfaces like ceiling rails and desk crossbars etc

**optional mounting bracket available*

Rechargeable battery

- ✓ 1 year battery life under normal operation
- ✓ Light indication for low power
- ✓ Charging power with standard mini-USB cable

**optional charger available for EU, UK and US*
